

Tailings Handling

- **Client**
Mantos de Oro
(Current Owner GoldCorp)
- **Location / Project**
La Coipa Mine, Chile
(NE of Copiapo)
- **Equipment**
1 Mobile Stacking Conveyor
500 m long
1 Mobile Radial Stacker
48.7 m long
- **Application**
FLSmidth RAHCO has a long history of providing mobile stacking conveyor systems. Since they are generally used for heap leach stacking, their application for dry tailings stacking is frequently overlooked. One of our first stacking systems was put into service as a tailings stacker at La Coipa mine in Chile.
- **Start up**
1992
- **Capacity**
1,200 tph Stacking
